# GUARD APPROPRIATION CUT TO \$255,000

## Managerial Plan in Effect; First Meeting Tonight

Featured by "swan songs" by Mayor Thomas E. Welsh and Ald. J. J. Dulin, a short talk by Councilman-elect J. K. Jensen, and numerous parliamentary tangles, the aldermanic form of government passed out of existence at the last meeting of the old council, Monday night. While there were a few dying gasps, there were no fireworks—only the blast of the camera man's flashlight, taking a picture of the mayor and aldermen in their windup session. It's to perpetuate our memory," the mayor suggested.

### New Council Tonight

The city manager plan of government, adopted by the city one year ago, went into full power Tuesday, and the first meeting of the new council of seven will be held in the council chambers at 7:30 Tuesday night. An audience, eagerer than that which packed the room, Monday night, is expected.

Carrying out the idea of a kind of directors, the new council will gather around one long table the individual desk idea of the old council being dispensed with, according to present plans. The new government will begin work and a profusion of flowers, it is expected. The first order of business will be the election of president of the council.

## KEMP TO SUPPORT BLAINE IN FIGHT

**Note Holder Says Governor Should Pass "Some Measure."**

(By ASSOCIATED PRESS.)

JANESVILLE.—Senator M. A. Kemp, who holds the key vote in the senate and dry fight, says he has been advised that amendments probably will be offered to the Sachsen bill restricting the search and seizure provision of the Severson prohibition enforcement law, before the measure comes to a vote in the upper house. This measure has been publicly endorsed by Governor Blaine in a special message to the legislature.

Kemp expressed the belief that would vote for the bill saying it was "necessary for the government to have some measure through the legislature." In view of his position in favor of a change to prevent search and seizure until this section of the law is passed, its author says was favored by Governor Blaine two years ago.

Other amendments would propose Senator Kemp said that was up to him.

Says Mrs. Heck, Racine, who holds the vote that may be decisive in upper house, that he has decided he would vote on the Sachsen bill. He declared his advocacy a referendum on the whole question, but said he would like to study the effects of the Sachsen before voting for or against it.

Senator Cook and Kemp both again resolution moralizing congress' modification of the Volstead after wets had counted on their side for the proposal. Their votes will be counted on April 17.

"As I have said many times, I have always been a believer in majorities and feel that the public has a perfect right to change from one government to another. And so I

**Supstitious Museum Builar Dodges Mummies**

(By ASSOCIATED PRESS.)

Stanford, Calif.—Possibly fearing those great "elementals" which some spiritualists say protect from harm mummies of ancient Egyptian origin of rank, the burglar Sunday night robbed the Egyptian room of the Stanford University museum and disturbed the priests remains of an Egyptian priest of the 26th dynasty, 600 B. C.

The priests, together with the mummified boy of a baby of the Christian era, at 100 A. D., is

kept in a hermetically sealed case. The burglar did steal the leaf of gold which originally covered the priestess' face and which was kept in another place, authorities said Tuesday. The leaf consisted of sheets which covered the nose, ears and eyes of the priestess when first mummified.

An examination Monday of the mummy led Sheriff George Lyle to believe he said, that the burglar who robbed the Egyptian room was highly superstitious in that no mummies were molested. The loss was estimated at about \$6,000.

MADISON.—The secretary of state attached to the Wisconsin department of revenue tax law was removed Tuesday when Governor Blaine signed the Severson bill, opening all income returns of individuals and corporations to the public. There was no comment accompanying the governor's signature.

This act ended the legal fight that was waged over a secrecy clause during the 1922 legislative campaign, with the La Follette bill.

Blaine said that while he was

## Russ Jail Yank; Execute Scores

(By ASSOCIATED PRESS.)

London.—A Constantinople dispatch to the Daily Mail says: "Wolfe Groszlose, an American relief worker, has arrived in that city from Tiflis, where he said he spent 18 days solitary confinement in a soviet prison on a charge of spying.

The charge was based on the discovery among his papers of an information policy which the soviet government maintained for an incriminating document.

Groszlose said that while he was in jail, 82 political prisoners were shot in reprisal for the assassination of a Bolshevik commissary.

Faint smoke came from back stage and floated out over the audience, indicating decided weariness. Miss Barrymore became a very serious lady. Then a stage hand, dressed in his working clothes, rushed to the center of the stage, his hat in one hand and a smoking rag in the other.

"Just a little rag burning, ladies and gentlemen," he announced and darted for the wings.

The audience roared.

"Now, where am I?" said Miss Barrymore—and then she went ahead with her lines.

**HEAVY TRUCK AND TROLLEY COLLIDE**

Big Vehicle, Loaded With "As You Were" Scenery, Tipped Over.

Three men escaped being crushed Monday night when a Ward brothers' truck, piled many feet high with scenery from the "As You Were" show at the Myers theater, was struck and tipped over by a street car coming down West Milwaukee street, at the intersection of 40th street. A scratch on one's wrist was the extent of the injuries while damage was minimal, both to the truck and to the trunks and boxes of scenery and costumes. Much more damage was not done because both the truck and the street car were moving slowly.

The accident occurred about 11:30 p. m. Leo Stangler was driving the truck and John Sabin the street car.

Just how the accident occurred is still a mystery. According to eyewitnesses, the truck was going slowly, coming from the stage door of the theater, striking the turn at Milwaukee street. Some may have driven the arterial highway stop. The street car was also going slowly, having stopped for passengers a block back. Sabin claims he put on his brakes three or four lengths of the car before the corner, but did not attempt to stop dead still as he thought the truck was to stop. The crash resulted in the street car striking the rear of the truck.

The contention that the search warrant was not valid was raised several weeks ago by Attorney George Sutherland, for the defense.

On the grounds that it was not made out in proper form, Judge Grimm's ruling held that:

"While the magistrate must be satisfied that there is just or reasonable cause to believe that liquor is unlawfully stored upon the premises to be searched, there is nothing in the statute requiring a search warrant to contain a statement of fact that he issues the warrant after a proper sworn complaint is presented, evidencing the fact that he is satisfied such cause exists.

A racial in the complaint in that regard, is not necessary to the validity of the warrant. For the reason a recital in the warrant that the defendant is guilty is sufficient that the complainant has reasonable cause for such belief does not affect its validity. Such recital is treated as surplusage and is disregarded.

The warrant is perfectly valid, either with or without it, if it contains what the law does require."

The trial has been waived.

District Attorney G. D. Purdy was ready to proceed with trial Monday, but Mr. Sutherland's witnesses were not present, so Judge Grimm set the trial for May.

Press of All Factions Comments Favorably on Baldwin Plan.

(By ASSOCIATED PRESS.)

LONDON.—The budget is on the whole, favorably received by the morning newspapers. This also is the attitude of the financial and business interests as expressed in brief interviews.

The Times is especially euphoric and thinks that the division of the large surplus is almost ideal.

The protectionist Post, for whom

no budget is altogether good unless it includes a general customs tariff on manufacturers and agricultural products, nevertheless thinks that the public will receive the budget gratefully.

The moderate conservative Daily Telegraph thinks the budget held

the scales evenly between debt redemption and relief from taxation and sees little ground for fault finding.

The imperialist Daily Mirror proclaims the budget sound and states that the government to recover some of the ground it has lost.

The Express calls it a model budget while the moderate Liberal Westminster Gazette says it is mainly honest and far-sighted and probably will be popular.

The Daily News, of Asquithian liberalism, however, considers it fairly honest and thinks Stanley Baldwin is entitled to praise for his adherence to sound financial principles.

## WITH THE FARMERS

Farm Bureau Official Information

## BUILD ROCK CO. "AGGIE" TEACHERS THROUGH BUREAU WILL MEET HERE

W. G. Patterson Named Chairman of Campaign Drive Planned Here.

Forward—Farm Bureau!

This keynote was sounded during the meeting called Monday afternoon for the purpose of township representatives to consider the three year membership campaign to be undertaken in Rock county this spring.

W. G. Patterson, Evansville, president of the Rock county Farm Bureau, was named chairman of the membership committee. The drive will be made by townships and school districts under central county organization.

Backed by three years' experience, the Farm Bureau is building a program of progress for agricultural Rock county. The Bureau will be sold not on rash promises, or organization coercion or force.

The most significant action taken was to consider ways and means to draw the lines closer to benefit more those who are members. Members declared that it was time to change the rules of the Co-operative Livestock Shipping associations so that the non-Farm Bureau farmers would not enjoy the full advantages as did the members.

The executive committee is considering a uniform set of rules for all the co-operative shipping associations in the county.

The Farm Bureau and co-operative marketing go forward together. At the recent meeting held in Chicago the American Farm Bureau Federation conference in Walton Peet, director of the Bureau "co-op" department, and at the same time, made arrangements for the employment of Aaron Sapiro as the Bureau co-operative counsel. The foremost authority on the pool system of marketing is now on the staff of marketing.

**Farm Bureau Benefits**

"Co-operative marketing is the kingpin of the Farm Bureau plan," declared J. P. Taylor, Chicago, Bureau organization representative. "The joining of Peet and Sapiro means a new landmark for all farmers."

"There is not a man or woman in Rock county who has not received some benefit from Farm Bureau work. The Bureau is the basic organization that spreads out to benefit all farmers and their families. The passing of the agricultural credits bill is one of the outstanding feats in national legislation that the Bureau has to its credit."

Your Bureau has a bigger idea than the organization of producers for price fixing. We know that such policies cannot endure and it is for the Bureau to build for permanent results. We want to keep clear of these hair-brained storms and ideas and build on firm foundation, utilizing every extension effort, worth while and the natural force of effective organization.

Just to Forward

"Don't stand still. Let's go forward; They know of Rock county in every part of the United States. Why? Because you have had a good Farm Bureau."

"Active townships means better service to the county—Bureau—the best unit."

"The trouble is that the men on the first campaign promised too much and did not know what they were talking about in selling the Farm Bureau," declared J. J. McCann. "I am not in favor of going out and trying to force members in. Rather let the Bureau on its merits and this time telling that the world is going to be set afire in a couple of months."

"We do not want any coercion or raise statements," advised President W. G. Patterson. "Rather we want a campaign that will mean a better county service organization with every township active and working. All plans for the campaign will be worked out by the campaign committee."

**SHORTEST OF HELP**  
**HANDICAPS FARMERS**

With every farmer anxious to get selected in the work of the farm bureau, there is more serious here than at any time in the last year. There are more than 100 applications for farm laborers on file at the office of the Rock county Farm Bureau and the good jobs going begging.

The increased demand for industrial laborers has resulted in a decided shortage of men who are to work on farms. As a result, farmers are being forced to pay wages that are out of proportion to the returns they receive. Prices quoted range from \$30 to \$50 a month for single men and higher for married men.

"It is a problem to obtain help at any price," reported Secretary H. C. Hemmingsway. "About half the men that we can supply for work do not seem to want to take the farm jobs seriously."

The shortage of labor will have a decided effect on farm production activities in Rock county during the coming season.

meeting closes?" the mayor then asked.

"I feel just like the mayor," declared Alderman Dulin, who accepted the suggestion to stay a while. "I've never been so lost in life. I'm not now. I have given up my time in the service of the city for 20 years and I'm just as clear tonight as the night I came into the council."

"I have always played my cards up on the table, believing the people should know everything. I never had any reason to hide anything. I have always tried to serve the best interests of all the people of Janesville."

"Someone else phone will be ringing nights and Sundays now and I'll be able to get away and enjoy a Sunday like the rest of the people. As the mayor said, I am going to continue to live here and nothing can be of service to me now. I don't care to afford to call on me. I am with the new council and know they carry on the good work. I want to thank all the members of the council, the city clerk and the attorney. We have had our little bouts here, sometimes won and sometimes lost, but let's leave them here and we go leave them to Janesville in appreciation."

Following the applause of Alderman Dulin, Mayor Welsh called on Councilman-elect C. Star Atwood, who was in the audience with Councilman-elect George A. Jacobs.

"I haven't anything to say, I'm only here for the audience tonight," said Mr. Atwood.

The mayor then called on Alderman Jensen, one of the new councilmen.

"I wish I could speak for the new council but I can only speak for myself," said Mr. Jensen. "I appreciate what both you and Alderman Dulin have said and thanked you for your good wishes. This time, may come when we may wish to call on you for help. I hope we'll prove equal to the job, at any rate we'll try to do our best."

Applause for Alderman Jensen and the motion to adjourn sine die followed.

here's a bran food you can eat  
with enjoyment and satisfaction

**YOU** are hardly to blame if you never could bring yourself to relish bran before. And for good reason, since never till now has there been a ready-to-eat and also **GOOD-TO-EAT** bran cereal—one you felt you could really enjoy.

**Post's Bran Flakes with Other Parts of Wheat** is made by a special process which retains with the bran other valuable parts of the wheat berry, producing a delightful food that is nutritious as well as laxative. Happily, it is non-irritating to any part of the digestive tract.

The special process preserves practically the full vitamin content of the wheat.

Instead of consuming bran as a disagreeable duty, you can now have in Post's Bran Flakes a real bran food so delicate and appetizing that you will be sure to add it to your list of preferred cereals once you have tasted it. Not only is it appetizing, but it contains the right proportion of bran to be thoroughly effective.

Don't put off feeling your best another day. Eat this delicious cereal regularly and you will soon begin to find health and happiness the most natural things in the world.

# PASS AMENDMENT TO ZONING LAW

Councilmen, in Last Session,  
Make Oil Station Pos-  
sible.

One of the last acts of the old council at its closing meeting, Monday night, was passage of an amendment to the city zoning ordinance changing the present site of the Birmingham & Nixon Lumber company, West Milwaukee and North High streets, from first business or business classification, to second business district, which will allow T. E. Goodall, of the Goodall Oil company, Beloit, and George Barry, Janesville, to take over the property for the erection of a gasoline filling station and creation of a parking space.

While this matter was disposed of by the old council, it is up to the new administration to say whether a Milwaukee street entrance and exit will be allowed. The zoning ordinance forbids corner filling stations with driveways on two streets, and while it is possible Goodall and Barry may be given a Milwaukee street entrance for motorists wishing to park, it is not probable they will be allowed a filling station entrance from that street.

## Dunker Is Seen.

In its recommendation to the council, the city plan commission pointed to the danger of having driveways on Milwaukee street.

Local councilmen from first to second business district by the ordinance are 140, 141 and 142 of Smith, Bailey & Stone's addition. The ordinance was passed, 13 to 1. Ald. Glenn L. Gardner casting the only dissenting vote. One motion of Ald. J. J. Duliu, the matter of new driveways, was left to the new administration.

**Officers' Bonds Accepted.**

Bonds and oaths of office of the new council and councilmen and school commissioners were accepted as follows: Councilmen, Mrs. Emma H. Manning, William McCue, J. K. Jensen, C. Starr Atwood, A. J. Gibbons, Boyd C. Gardner and George A. Jacobs; school commissioners, Ernest Earle, E. J. Haunmersen, Charles Muggleton, George Craft, and J. P. Hansen; Justice of peace, Charles Lange.

Pay of election inspectors and clerks was made the same as last year, on motion of Ald. D. Horn, \$12.50 each for the 10 chairmen; \$10 for 20 inspectors; and \$10 for 40 clerks, a total of \$65. Eight councilmen who worked at the polls on election day as special policemen were given \$5 each on motion of Alderman Duliu.

A \$6,000 payment to the Mierswa Construction company was ordered and the city treasurer's bond of \$100,000, premium of \$375 was ordered continued, following a mix-up on motion and amendment.

**Resolutions Tabbed.**

Two resolutions that none of the aldermen seemed to know anything about, were tabled on motion of Alderman Jensen. One was for repair of the alley between Glen street and Fifth avenue and the other for grading Williams street, from Walker to Blaine avenue. Alderman Horn objected.

"Why table these measures, when it takes a two-thirds vote to raise them from the table?" protested Mr. Horn.

"Not after tonight," put in Alderman Duliu and the resolutions were adopted.

With these two resolutions tabbed, Alderman Horn offered a similar amendment to Alderman Jensen's resolution to install a 100-candle-power light on Jerome avenue, half-way between State and Elliott streets. The Horn resolution died without being seconded and the original motion was adopted.

Alderman Jensen announced the light would be moved to a telephone pole about 12 feet above the ground as a "safety first" measure in connection with the railroad crossing there.

**Licenses Granted.**

A license to deal in milk and cream was granted to James Stack, Robert Churchill and R. H. Clarks. Two drivers' licenses were issued to the city police department.

# Girlof Ghost Mountain

By J. ALLAN DUNN

Author of "A Man to His Mate," "Rimrock Trail," "The Man Trap."

Copyright by Small, Maynard and Company, and published by arrangement with McClure Newspaper Syndicate.

**SYNOPSIS.** Peter Sheridan Young, New York lawyer, and his Arizona rancher son, who has contracted tuberculosis, Chico, seen on his ranch, is near Ghost Mountain on which he and his foreman, Red Jackson, discover a woman, though, however, she is a girl. A gangster, and nearby town Hollister, rustler, and bad man, attacks a Chinaman who is rescued by Sheridan and installed as cook at the ranch. Peter Sheridan is accused of being the Chinaman. It is revealed by a young woman and a giant Swede maid. Thora, fearing that Hollister and his gang are going to raid the place, and her plan to rescue the woman.

They made a ludicrous picture as they sat, some of them cross-legged on the boards, dumb, goggling at the girl, at the great fire of Thor, pouring from the big kettle as if it weighed no more than a teapot, each man thumped his doughnut, reached up for his cup of coffee served in tin and porcelain, they had a ridiculous resemblance to a children's picnic. And they seemed to feel it, to be held in amazement at the way the situation had been changed. They had come prepared to bluster, to demand, to threaten, to call to do their play boisterous tricks, but here they were, subdued by a Circe who fed them doughnuts. But when they ate them, they broke bread in the house, they unconsciously assimilated the canons of such hospitality—and they eagerly devoured the cookies. Hollister shuffled a little in his chair, trying for some plausibility, but he could not shake off an undoubted uneasiness. Neither Sheridan nor Jackson had noticed him by word but both sat, evidently welcome guests, and there was a quiet menace in the way they had shifted their guns so that they lay on their thighs while they munched at their doughnuts, and represented that she was gleam in their eyes. Hollister had never forgotten the demonstration of Sheridan's shooting. He saw both men were packing an extra gun. He remembered Jackson's boast of left-handedness. He had a premonition that he could not start anything that would not finish suddenly and disastrously to himself, first or last. And he had lost his grip over the men who had galloped so recklessly across the meadows on their "chivaree." There would be another laugh on him, and there had been too many laughs of late. He was a bully and his leadership had to be asserted by a bully's methods. The men had no heart. When for him, he was well aware of that.

He viewed Jackson with a special enmity, guessing that the cowboy must have in some way got wind of their trip while he was in town. He knew nothing of the meet-

## How to Rid the Arms of Objectionable Hairs

(Aids to Beauty)

A simplified method is here given for the quick removal of hairy or fuzzy growths and rarely is more than one treatment required. Mix a stiff paste with some powdered deaconite and water, apply to hairy areas and after 2 or 3 minutes rub off, wash the skin and every hair has vanished. This simple treatment cannot cause injury, but care should be exercised to get real deaconite.

## A Successful Man

Among the notable professional men of this country who achieved great success along strictly legitimate lines was Dr. R. V. Pierce. Devoting his attention to the specialty of women's diseases, he became a recognized authority in that line.

Over fifty years ago this noted physician gave to the world a Prescription which has never been equated for the weaknesses of women. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Doctor Pierce's Favorite Prescription, a mixture of vegetable

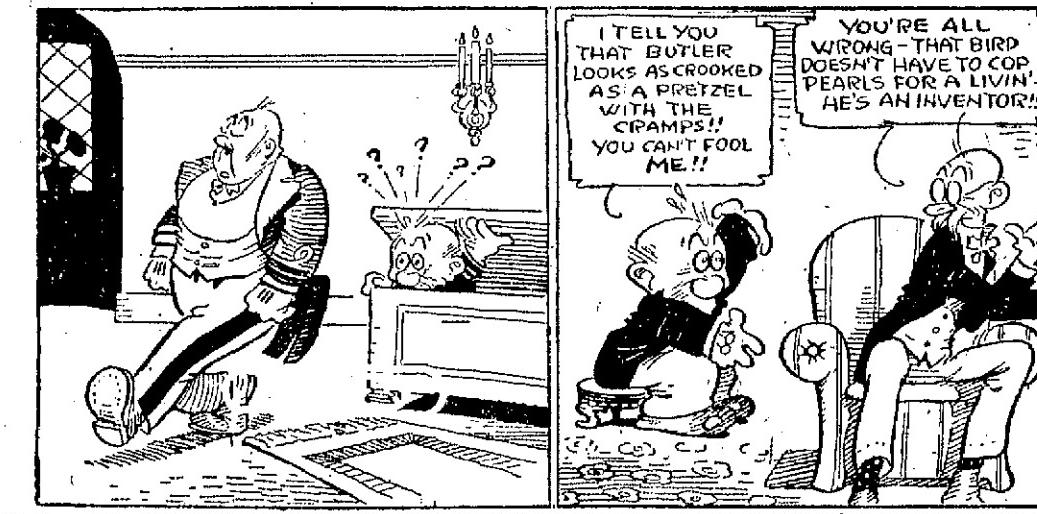

growths that nature surely intended for backache, headache, weakening pains, and for the many disorders common to women in all ages of life. Women who take this standard remedy know that it is Dr. Pierce's Favorite Prescription they are getting—the woman's tonic so good that drug companies everywhere sell it in both tablet and fluid form.

To Prevent Yellowing—Ermine, the prettiest and the most expensive of our white furs, has the disadvantage of yellowing if laid away. To avoid this mishap line the box in which it is to be secured during the summer with blue tissue paper, or wrap the ermine in clear muslin made very fine with laundry bluing (but not strong). Put each of white wax in the box with it.

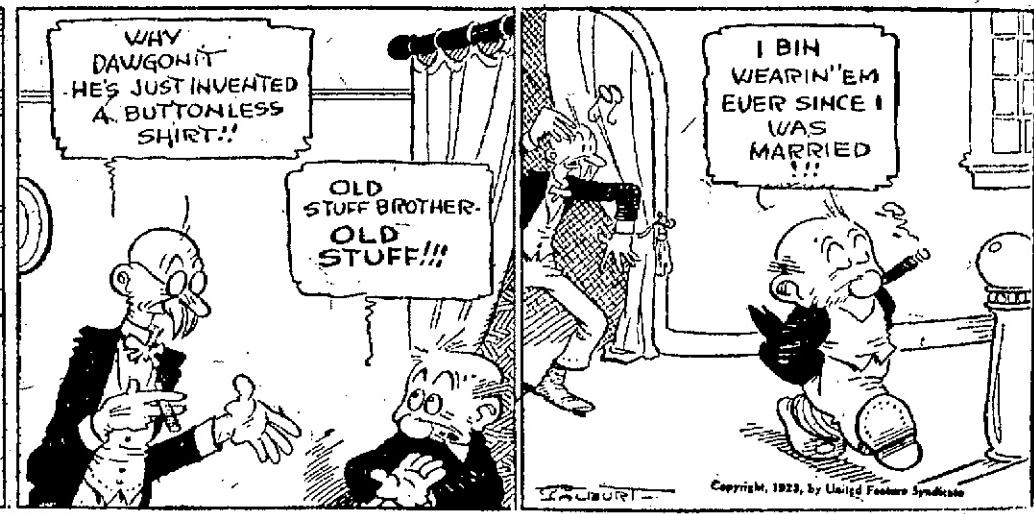

To Keep Cheese Fresh—Keep cut cheese wrapped in a cloth. If it begins to be getting too dry, smear a little butter over it.

## Heart and Home Problems

BY ELIZABETH THOMPSON.

Letters May be Addressed to Mrs. Thompson, in Care of the Gazette.

Dear Mrs. Thompson: I am good-looking, have good clothes and come from a family which every one respects. I have heard people say that I am a good girl and receive at school are better than the average. But while I have many friends among the older people and girls I do not have boy friends. Why is this?

Only one or two boys have ever asked to see me. The girls of my age have boy friends and they wonder why I do not. Is there a way to interest the boys? Meets them half way and encourage them to talk about school, sports, dances, plays, etc. You have told me at length about your advantages but you have merely hinted at a possible fault of being shy. All of us have faults as well as good points and I would advise you to study yourself from that point of view and forget about good looks, clothes, high grades, good family, etc. None of your assets are enough to induce charm; that is a thing from within.

You simply haven't found a way to be interesting to boys. Meet them half way and encourage them to talk about school, sports, dances, plays, etc. You have told me at length about your advantages but you have merely hinted at a possible fault of being shy. All of us have faults as well as good points and I would advise you to study yourself from that point of view and forget about good looks, clothes, high grades, good family, etc. None of your assets are enough to induce charm; that is a thing from within.

Dear Mrs. Thompson: I am 14 years old and have been invited to a party with a boy from school. It is dances to his home at night. My mother says I cannot go. But my girl friend is going, and I don't see why I can't. She is only 14 too. What can I do to make my parents let me go?

Fourteen. You are really too young to attend dances at night, and therefore your parents are right. You should tell them the best of your disappointment for you to realize that your parents are only keeping you away from the dance because they consider you too young to attend.

Dear Mrs. Thompson: What will remove a wart? I have one on my finger and it is very annoying.

G. T. Nitric acid will remove a wart. Apply it with a toothpick and be careful not to let the acid run onto the flesh around the wart.

E. H. M.—As sage tea was used many years ago as a tonic as well as a coloring for the hair it could not have been harmful to the scalp. Powder the roots of the tea and rub it in the scalp this excessive perspiration. If this does not stop the trouble try a powder that is made astrigent. Any druggist can make this for you.

Constant Reader—Massage into the arms any flesh building cream to fatten them, and take the exercises that develop grace, such as those used in dancing, tennis, golf, etc.

Beauty P.—Any enamel that is painted on the nails will cause them to become brittle. The best polish is that wrought by buffing the nails. Buffing will give also the pinkish tint that you want, since it improves the circulation under the nail.

H. H. M.—Circular exercises that will reduce the skin and tighten it are the one of bending at the waistline, and then swinging the upper part of the body in a circular movement, first to the right and then to the left. In each case try to describe a circle coming back to the original position.

But the baby can't want what it has never known, and if we teach him early in life that going to sleep is an accompaniment to being put in his basket or crib, the shades pulled down or the lights put out and the door closed, we may be sure that he will learn this as rapidly and thoroughly as he learns the value of attention.

The "little rascal," says the mother proudly, "doesn't know, though, that his mother will rock him when he cries."

And doesn't he though? Even a tiny six weeks older will howl with gusto if he finds that by so doing he will be cuddled and swayed back and forth until sleep claims him. He enjoys it, no doubt, but he doesn't need it to make him healthy and what is at first the keenest delight soon develops into a form of martyrdom for the mother.

Chicken Goulash—Hungarian dish. Dip a chicken the usual way. When tender, take out the bones and cut them into small pieces. Cut chicken into small pieces except the liver, heart and gizzard. Reserve these for other use. Put chicken in liquor, add one-half can of tomatoes, four onions, salt and pepper to taste. Stew until done. Have ready one dozen slices of toast. Pour over the meat, serve hot.

SPOILING THE BABY There is no doubt but that the famous mother attributes wisdom to her baby that he is far from possessing; at the same time, even the youngest baby soon learns how to get his own way, whether by wisdom or instinct.

"The little rascal," says the mother proudly, "doesn't know, though, that his mother will rock him when he cries."

Gray Hair Unnecessary As I Have Proved

I proved it many years ago by restoring my hair to its natural color.

On the list was Harry Littlefield. He saw Harry at a distance in his pasture and called to him as he drove alongside of the stone wall.

Harry with a begrudging manner came slowly over to him.

"Well, Harry, I'm up again for Selectmen this year. I can count on you, of course."

Harry gave Lem a dirty look.

"I guess you'll be satisfied with some pretty low down Selectmen," he faced scowl—but all the hell witted, corrupt, upercrupulous, mean-spirited, thievish skunks as ever sat on the Council you, Lem Pratt, are the lowest! Vote for you! I'd sooner vote for a hyena!"

A Constant Reader—These blisters on your hands and feet continue to cause them to infect each other. Have the doctor prescribe for them. It is always better to have them treated quickly when you have the proper treatment.

Margorie Y.—Neither henna, nor any other coloring, will affect the shade of the hair at the roots. Not even the strongest of dyes would do that. The hair will always grow out in its natural shade, but this process takes time. You will take weeks before the difference in coloring will be noticed. Everybody will notice the hair knows this and touches it up at the roots from time to time. That is, everybody who makes a complete change in the color of the hair, if you are merely brightening the shade of using henna in the shampoo, this will be all that is needed, for the hair will hardly lose the tint before it is time to repeat the shampoo.

Discouraged—A large bust is less noticeable if the corset is worn rather than at the waist, and any corseter will show you how to have the corset effect this change. Contrary to what you may have heard, the tightness of the corset over the waistline really makes a stout woman appear to be much more slender than she is. Wear the new blouse effect in your new dresses as this style lends itself very well to the full bust.

Carmel—Clear those clogged pores by using plenty of cleansing cream at least once a day and then move this with very warm water. Close the pores then by dashing very cold water over the skin or by giving it an ice rub.

E. H. M.—As sage tea was used many years ago as a tonic as well as a coloring for the hair it could not have been harmful to the scalp. Powder the roots of the tea and rub it in the scalp this excessive perspiration. If this does not stop the trouble, try a powder that is made astrigent. Any druggist can make this for you.

straight down the highroad. "Gittap, Boss!"

Marie, seven years old, was being washed, and was uttering her customary protest.

"I wish," she said earnestly, "that I need never have to be washed again."

"afraid," replied her mother gently, "that as long as you, have me to take care of you, you'll have to make up your mind to be washed thoroughly every day."

Marie considered this problem for a moment. Then she faced her mother

# Alley Rats Take Lead in First Night of City Pin Meet

## HANDICAP SCHEME GIVES INEXPERT CHANCE FOR CASH

### THE LEADERS.

Alley Rats	2703
City Meat Shop	2655
Shurtliff No. 1	2623
Marshall Oil Co.	2592
Wis. Elec. Sales Co.	2588
Nostwick & Sons	2529
First National Bank	2515
Shurtliff No. 2	2497

Janesville's largest city bowling tournament in its history got under way with a bang at the West Side alleys Monday night with booster teams taking the drives. The first eight five man teams of an army of 70 tossed the first ball. A large sized gallows rocked the space to the rear of the playing space, rooting strenuously for their favorites.

Handicaps demonstrated their values in the opening games putting the Alley Rats on top with a count of 2,703, although the actual tally of the leaders was but 2,076.

### Alleys in Good Shape.

With the alleys new and sound and new wood on the pins, the leaders hit into a series of splits Monday. Some hard strikes were cleaved in the pins and some nice pickups were exhibited. Where the maple topplers fell down on the initial night was in the making of spaces regularly.

While they did not land in first position the Shurtliff Ice Cream team No. 1 gathered the actual high score of the night with 2,323, but their handicap put them in third place with 2,223. The high handicap game was won with 802.

The City meat shop had second high actual score of 2,158. Their handicap of 437 helped them to retain second position.

### First Doubles Tuesday.

High honors for individuals Monday were won by H. Warner of Shurtliff's No. 2. He hit a single game of 211. C. Wills of the meat shop butched the checkers with 200.

Foul ball games will be rolled on the first shift Tuesday night. The second shift will be taken by five man squads. Chances are good that new names will be seen among the leaders after Monday's rolling.

The foul man got his eagle eye working Monday night and called a number of over-steppers.

Must Be Done.

Teams are again notified to be on time to their games. Captains must be at the alleys a half hour before time to start.

The list of prizes in each event will probably be ready for announcement not later than Thursday and may be completed by Wednesday. The committee is still working on the apportionment.

Lathrop May Play Up at Kaukauna

William G. Lathrop of Janesville this year under Manager Eddie Stumpf. Bill has been asked by Stumpf for his terms for Saturday and Sunday baseball in the Wisconsin state league and from indications they will be accepted.

Lathrop former White Sox, Stumpf and Detroit Nat'l. Indianer, is receiving numerous offers to twirl.

The big boy will umpire the bases in the first home game for the University of Wisconsin, Friday, when Indiana appears at Madison.

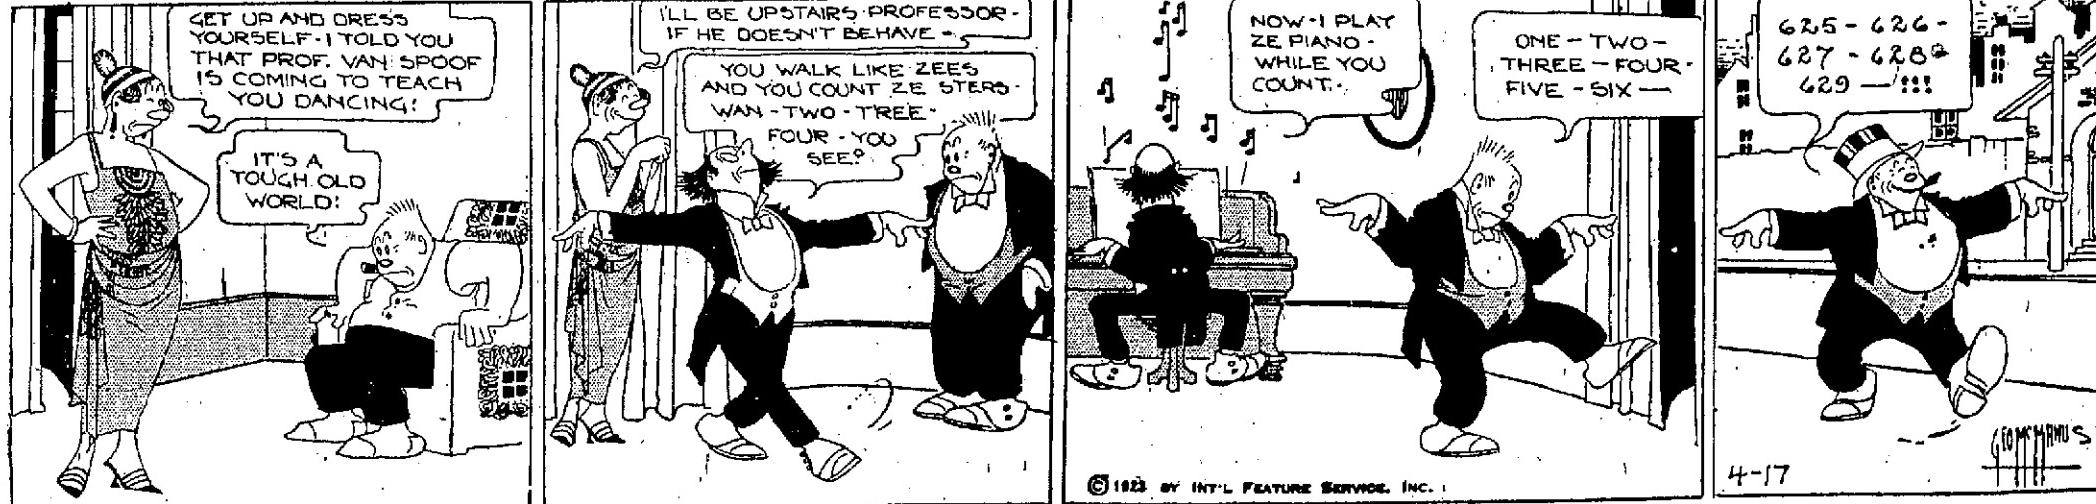

Beloit-Badger Game Cancelled

Janesville—For the second time, the game scheduled between the University of Wisconsin and Beloit college has been baited by the weather. Beloit was to have come here Tuesday, but wet grounds has called a halt.

## Wisconsin Crew May Race at Poughkeepsie in 1924

**Madison.**—The University of Wisconsin will send its varsity crew to Poughkeepsie in 1924 for the first time in 10 years if the recommendation of the athletic council meets with the approval of the faculty. The council by unanimous vote has recommended that beginning next year the university again participate in the annual regatta at Poughkeepsie.

Wisconsin is the only university between the Allegheny and Rocky mountains which maintains a crew as a major sport and has found difficulty in the last 10 years securing competition. Michigan, Chicago, Iowa and Minnesota are now becoming interested in rowing and the department of physical education at Wisconsin is attempting to organize a mid-western regatta.

It is probable the winner of the California-Washington crew race will meet Wisconsin on Lake Mendota enroute to Poughkeepsie this spring. The crew from the University of Wisconsin, which was scheduled to meet Wisconsin, has been compelled to cancel its race.

The Wisconsin junior crew will meet the St. John's cadets on Lake Mendota, May 25, the day of the twenty-ninth Intercollegiate Track and Field meet, and will race with Culver Academical, Beloit, and Winona.

The foul man got his eagle eye working Monday night and called a number of over-steppers.

**LATEST MARKET REPORT****GRAIN**

**Chicago Review.** —Owing largely to an unbroken series of rains, wheat and corn had swelled prices day during the early dealings. Bullish crop reports, especially from western Nebraska, tended to stimulate buying, but the market did not gain much. The United States supreme court decision upholding the validity of the farm relief act applied to most grain as a result. Opening prices which varied from unchanged figures to \$4 higher, with May 19@45c to 21@45c, and July 12@25c to 13@25c, were followed by a moderate advance.

Subsequently, despite improved weather conditions, the entire market, except the market around Chicago, showed a steady decline.

The demonstration of strength brought about buying power into the industrial group, in the form of popular shares, ran from one to four points. Early demand embraced the good, motor accessory and public utility issues. In general, United Railways Investment preferred and Marine preferred were under selling pressure, the last named being a new low record for the year. Call money opened at five per cent.

Mixed price movements took place at the opening of the stock market, but the main tendency was upward. New high records for the year were established by Dupont at 15@2c, Canadian Pacific at 15@2c and General Motors at 15@2c. Most of other motor and motor accessory shares also moved to higher ground. Sporadic selling again broke out in the group.

Prices hardened after the early selling orders had been absorbed. Trading in rails was more active with a gain of 1@2c. Substantial financial improvement was registered by New York Central, Southern Railway and the railroads of Baltimore and Ohio, Rock Island and Stewart. Stewart's establishment a new top at 13@4c, up 1@2c.

# MUNICIPAL MILK BILL TOO STRONG

Even Progressives Can't See Measure Backed by Socialists.

**IN FAVOR TO THE GAZETTE.**

**MADISON.**—The legislature wisely refuses to permit municipalities to become milkmen. A bill of socialistic origin was for the specific purpose of authorizing the common council of Milwaukee to establish stations and distribute milk. Even progressive farmers of the Staudenmayer stamp could not bring themselves to believe that milk distribution is a function to be safely entrusted to public agencies, and so, largely by Senator Staudenmayer's influence and vote, the measure was nullified. It has been a pet obsession of socialists at several sessions.

**JIT Cafe Notes.**

Down in the basement of the statehouse is an extensive cafe operated by an organization known as the Cafeteria Club, which is composed of state employees. Rates there are no lower than in similar restaurants aroundabout Madison. A resolution has been introduced directing that "on and after June 1 next, the superintendent of public property shall be directed and requested to instruct the use of any portion of the capital for private gain unless adequate rental is paid by the person, firm or corporation for the use thereof." Thus it appears that, even though operated by the so-called Capitol Mutual corporation, there is an element of private gain in the enterprise. Possibly this resolution may have been introduced by cafes outside the capital park. But it is equitable nevertheless.

**By Senator Heck.**

If the club is furnished by the state free space, free light, free heat and free water it must operate in a manner most unjustly to taxpayers, private citizens and unfortunately circumstances. This resolution is by Senator Heck of Racine, the same circumstances gentleman who is showing special interest in our beautiful capitol. It was he who secured adoption by both houses of a resolution forbidding the use of the statehouse for any kind of entertainment where a charge of more than 25 cents per person is exacted. The resolution has been in effect since last fall. It is a resolution that has ended for all time the brilliant junior proms of the university. His care resolution is now in the hands of the joint committee on finance. Why have a cafe in the capitol while \$20,000 is paid in rentals outside by the state?

**Would Amend.**

Somehow he has introduced a resolution to amend the constitution limiting a legislative session to 120 days. It probably will not prevail, nor should it. If we were to have session biennially, and no ban be placed upon the number of bills presented, there can be no hope of an intelligent digestion of the actual work of the legislature. A single bill has been reduced in many a past session. The last session to make the attempt was Axel Johnson of Polk county some six or eight years ago. He assembled a valuable mass of information upon the subject, making an heroic fight on the floor, yet was badly beaten. Wise heads in legislation stand that the real legislation cannot be acquired hastily. Really a better innovation would be to change the constitution by inserting ten words now is two in the fundamental law, thus extending the interim between sessions ten years. One scarcely can conceive of any harm to the community if the legislature can no often than once in a decade and how infinite the relief felt by nearly every interest, financial, industrial, economic!

**Heads Much Chase.**

A good story is being told at the expense of Sergeant-at-Arms C. A. Leicht, a New Lisbon editor. Many Winnebago Indians, roundabout his home, and so the story goes, one of them came into his office recently to subscribe, demanding a receipt. Leicht, surprised at such a request, asked why.

"Indian die some day," replied the Winnebago, "and go to happy hunting ground. Saint Peter man meet him at big sky and ask, 'What good Indian? Tell him he's been good Indian.' 'Road home paper,' ask Saint Peter man. 'Show me receipt' say Saint Peter man, and Indian had no receipt, so must go chasing all over hell for Leicht to get receipt."

Bible reading always has been and always will be general and considerable popularity of this Large Print Red Letter Edition of the Bible fully realized this, and they also realized that few households do not contain some edition of the Book, either an heirloom wherein the family records were set down, or a copy given by a loved one, or perhaps a Bible treasured as a keepsake of one who has passed on. This is all as it should be, and these should be preserved for memory's sake most carefully. But let us use modern phrase—what everybody needs is a new "working copy" of the Bible, one that is printed on the most durable paper, one set in the kind of type most easily read, one that the children can call their own to handle as they will without a fear that in their carelessness they may destroy the book we have so cherished.

**Petitions Perfected.** Among the protests beginning to flow in are some from Duluth against the proposed gasoline tax of one cent a gallon. The city lies on the state line, and perhaps the people are afraid of certain possible effects of the operation of such a law, not visible to persons residing farther from the boundary. But petitions count for nothing. Recently one senator alone introduced perhaps 50, all worded identically the same and all in behalf of Tucker's iron-bound 8-hour bill. The other senators had been induced by some organization, walking delegate or secretary, and they had come back, or course, duly signed by members in the various organizations to which they had been addressed. Legislators fully understand the wholesale manner in which both petitions and remonstrances are secured, and then forget them. Nothing more perfunctory appears in legislative annals.

**HARDING SAYS GARY RIGHT IN LABOR IDEA**

Washington.—President Harding today believes that E. H. Gary, chairman of the board of the United States Steel corporation, was quite correct in his statement made to the corporation's stockholders Monday, that serious labor shortage was threatened through the inflation of the restricted immigration laws.

A vigorous defense of the restrictive immigration laws was made Tuesday by Chairman Johnson of the house immigration committee who, replying to an attack by Mr. Garey, said the corporations were seeking cheap labor.

In his report to the president, Secretary of Labor Davis said that, despite the labor situation, he believed throwing open the gates of immigration and flooding the country with workers and non-workers at the present time would "bring prosperity to an end."

## WEAPON AGAINST CULT IS VOTED

Lansing, Mich.—The Howell amendment to the corporation laws, which will be one of the chief weapons of the state in its fight against alleged illegal practices at the House of David colony and Benton Harbor, was passed by the house without a dissenting vote. The amendment would prevent any persons setting up a dictatorship over religious sects.
